Text Books for the Course

NOTE: The indicated chapters must be read before coming to the indicated class meeting.
CONDITIONS UNDER WHICH THE COURSE OPERATES

EXAMINATIONS:

There will be three examinations given during the course of the semester. ALL examinations are required. NO make-up examinations will be given. You will receive a grade of ZERO for each exam not taken. All examinations will be multiple choice and will be scored by computer.

RECITATIONS:

Recitations are NOT optional in this section of Psychology 1001. There will be four assignments in recitation. These assignments will be graded and they, plus a grade for participation, will form your recitation grade. Assignments handed in late will receive a grade of ZERO. All recitation assignments MUST be handed in on time in order to receive a final grade for the course. If, at the end of the semester, you have not handed in one or more of your recitation assignments you will receive a grade of "IF." In order to have the "IF" removed you must complete your recitation assignments.

GRADING:

Your final grade will be computed from your three exam scores and your recitation grade. The total possible points in the course is 800:

150 - 1st Exam (14 February 1989)
150 - 2nd Exam (16 March 1989)
150 - Part I of the Final Exam (5 May 1989)
150 - Part II of the Final Exam (5 May 1989)
200 - Recitation Grade

800 - Total Possible Points

Your final letter grade in the course will be assigned in the following manner: First a "Reference Score" will be calculated by taking the arithmetic mean of the top five percent of the class (the top 20 people). Your grade will be determined by how well you have done relative to this reference score:

A > 96.6%   A- > 93.3% of reference score
B+ > 90.0%   B > 86.6%   B- > 83.3% of reference score
C+ > 80.0%   C > 76.6%   C- > 73.3% of reference score
D+ > 70.0%   D > 66.6%   D- > 63.3% of reference score
F < 63.3% of reference score

It is therefore possible for the ENTIRE CLASS to receive the grade of A. So please study and work hard!
CONNECTIONS UNDER WHICH THE COURSE OPERATES (Continued)

RESEARCH PARTICIPATION:

All students enrolled in Psychology 1001 at the University of Colorado are required to gain experience with the experimental aspects of scientific psychology. This requirement may be fulfilled in one of two ways: By participating in laboratory experiments in psychology (Option I), or by writing a critical review of some published experiments in psychology (Option II). These two options require approximately equal amount of work. Students NOT completing either Option I or Option II requirements by the end of the semester will receive the grade of "IF" for the course. If either Option I or Option II requirements are completed within one year, the "IF" will be changed to the grade earned on the basis of the examination scores and recitation grade. Early in the semester you will be given a form on which to indicate which option you have chosen to fulfill the research participation requirement. You may at any time switch form one option to the other, depending entirely on your personal preference.

Option I:

You agree to participate in 4 hours of experimental research conducted by members of the faculty or by students under the supervision of members of the faculty. These experiments have been reviewed by a faculty committee to insure that the experiments involve no invasion of your rights of privacy and that they do not use procedures which are either dangerous or morally or ethically objectionable. You do not have to participate in any experiment which you find, for any reason, unacceptable. If you make an appointment to participate in an experiment, and you are more than 15 minutes late or you do not cancel your appointment at least one hour in advance, you will be penalized by the addition of one hour to your participation requirement.

Option II:

You agree to write a critical review of an experiment or series of experiments published in the psychological literature. The exact nature of your review will be decided upon by discussion between you and Professor Harvey. This review will give you the chance to critically evaluate an author's conclusions and to organize in your own fashion a body of experimental knowledge. Your review will be judged satisfactory or not satisfactory by Professor Harvey. The quality of the review will NOT affect your course grade.
AGREEMENTS FOR PARTICIPATING IN THE COURSE

The purpose of these agreements is to create a condition that allows all people in the class to get maximum value from the course.

AGREEMENTS

1. You agree to be responsible for these agreements.
2. You agree to be on time to class and to your recitation meetings.
3. You agree to complete the assigned reading on time.
4. You agree to complete your recitation assignments on time.
5. You agree to attend all class and recitation meetings unless an emergency comes up.
6. You agree not to smoke in the auditorium and in the recitation classroom.
7. You agree to understand the material.
8. You agree to ask questions when you don’t understand the material.
9. You agree to communicate any complaints and criticisms you may have only to someone who can do something about the situation and you agree NOT to complain or to criticize to someone who cannot do something about the situation.
10. You agree to get value out of your participation in the course.

If you feel that you can not make these agreements, please transfer to one of the two other sections of Psychology 1001. If you attend the next class meeting, you are accepting responsibility for the above agreements.
